AMAZING PHILIPPINES EXPERIENCE FOR CREATIVITY WORKSHOPS

We founded Trips+ Holidays With Purpose as a social enterprise to solve a real problem:

To provide employment for young graduates in the Filipino provinces which prevents them leaving their families and support structures.

In addition to your business goals, the foundations of a Trips+ Holiday With Purpose are as follows:

- Play your role in a shared charity project that will make a real impact.
- The focus is on education and seeing the power of Gawad Kalinga Villages.
- Gain an understanding of how to solve poverty through social enterprise as opposed to handouts).
- Breathtaking scenery, mouth-watering food and incredible adventure.
- Unbeatable value for money.
- Create a lifetime of beautiful memories with outrageous fun and adventure.
- Build strong connections with local community and culture.
- Tap into hidden local knowledge.
- Leave a legacy by creating jobs for Filipino locals and fund local charity projects.

All our trips are customised and include deep interaction with the culture.

Mario Potestades, my co-founder is Filipino, grew up on the land in poverty and came to Australia on Boxing Day 1990. For the last 7 years he has been going back to the Philippines mentoring and training the next generation of leaders.

The below is an itinerary that meets your criteria of cultural immersion, practical opportunities to engage with projects, and your conference on the stunning Palawan Islands.
